LANGUAGES

- **English:** Professional Working Proficiency (B1)
- **Ukrainian:** Native Speaker
- **Russian:** Native Speaker

SOFT SKILLS

- **Communication:** Excellent written and verbal communication skills
- **Teamwork:** Proven ability to work effectively in cross-functional teams
- **Adaptability:** Quick learner with the ability to adapt to new challenges and technologies
- **Problem-Solving:** Strong analytical and problem-solving abilities
- **Leadership:** Experience in leading projects and mentoring junior team members
- **Time Management:** Highly organized with excellent time management skills
- **Client Relations:** Skilled in client engagement and customer service
- **Attention to Detail:** Meticulous attention to detail and quality
- **Conflict Resolution:** Effective in conflict identification and resolution

HARD SKILLS

Frontend Development

Core Technologies: React, Redux-Toolkit, Next.js

UI Libraries & Frameworks: Material UI, Styled-Components, SCSS, Tailwind CSS, Ant Design

Additional Skills: React Ecosystem Libraries, AWS Frontend Services

Backend Development

Core Technologies: Nest.js, Node.js, Express, GraphQL,

Database Management: PostgreSQL, MySQL

ORMs: TypeORM, Prisma, SequelizeORM, Mongoose

Architecture Approaches: Monolithic, Serverless

Additional Skills: AWS Backend Services, Nginx, Linux

DevOps & Collaboration Tools

Version Control: Git

Cloud Computing: AWS, Google Cloud Platform

Containerization & Orchestration: Docker

Database Hosting: RDS

CI/CD: GitLab CI, GitHub Actions

Additional Services: Stripe, Twilio, Socket.io

Testing & Quality Assurance

Jest, Mocha

Project Management & Workflow

Agile, Scrum, Kanban, Jira, ClickUp, Trello, Asana

EDUCATIONAL BACKGROUND

Bachelor of Software Engineering

National Aviation University (2020 - 2024 - expected)
Faculty of Cybesecurity, Computer and Software engineering

WORK EXPERIENCE

Full Stack JavaScript Developer (Intern)

ZenBit / *March, 2023 - June, 2023*

As a Full Stack JavaScript Developer, I was an integral part of a collaborative team tasked with the development of a web application. My responsibilities and tasks included:

- **Full Stack Development:** Led the development efforts for the web application, responsible for both front-end and back-end development using a JavaScript-based tech stack. Ensured the seamless integration of the front-end and back-end components.
- **Team Collaboration:** Worked closely with a cross-functional team of developers, designers, and project managers to define project objectives, gather requirements, and ensure alignment with the project's goals.
- **Feature Development:** Designed, implemented, and maintained various features and functionalities within the web application, such as user authentication, database integration, and dynamic content generation.
- **Database Management:** Utilized database technologies to manage data storage, retrieval, and optimization, ensuring data integrity and security.
- **User Experience Optimization:** Focused on creating an exceptional user experience by developing a responsive and intuitive user interface, ensuring accessibility and usability.
- **Testing and Quality Assurance:** Conducted rigorous testing, including unit testing and integration testing, and participated in code reviews to identify and rectify issues, ensuring the application's reliability and performance.
- **Agile Development:** Embraced agile methodologies, actively participating in sprint planning, daily stand-ups, and retrospectives to facilitate effective project management, rapid development, and continuous improvement.
- **Documentation:** Maintained thorough documentation of the project, including architecture, codebase, and technical specifications, to facilitate knowledge sharing and future development.
- **Security and Compliance:** Implemented security measures and ensured compliance with industry standards and best practices to safeguard user data and maintain data privacy.
- **Professional Growth:** Kept abreast of emerging technologies and industry trends, constantly seeking opportunities for self-improvement and growth as a Full Stack Developer.

My role as a Full Stack JavaScript Developer involved a multifaceted approach to web development, where I played a pivotal role in the design, development, testing, and optimization of a web application, contributing to its successful launch and ongoing enhancement.

Web Developer

Freelance / *September, 2022 - February, 2023*

During this period, I dedicated my efforts to web development, with a particular focus on creating engaging landing pages and websites. In this role, my responsibilities and tasks encompassed the following:

- **Client Collaboration:** Collaborated closely with clients to comprehend their unique objectives, target audience, and project requirements.
- **Front-End Development:** Employed HTML, CSS, JavaScript, and other web technologies to craft responsive, visually appealing, and user-friendly landing pages and websites.
- **Design Implementation:** Integrated design concepts provided by clients or created in-house using software such as Adobe Photoshop and Figma.
- **Content Management:** Effectively managed and organized content, ensuring it was compelling, relevant, and aligned with the client's messaging.
- **Responsive Design:** Ensured that all web projects were responsive, adapting seamlessly to various screen sizes and devices to provide an exceptional user experience.
- **Testing and Debugging:** Conducted comprehensive testing and debugging procedures to identify and address any issues, guaranteeing the functionality and performance of the websites.
- **Client Feedback and Revisions:** Actively sought client feedback and accommodated necessary revisions to meet and exceed client expectations.

- **Project Management:** Efficiently managed project timelines, resources, and deliverables, ensuring projects were completed on schedule and within budget.
- **Staying Current:** Kept up-to-date with industry trends and best practices to deliver modern and innovative web solutions.

My role as a Web Developer involved a balance of technical proficiency, creative problem-solving, and effective communication with clients to deliver high-quality landing pages and websites that met their goals and engaged their audiences effectively.

Graphic Designer

Freelance | March, 2022 - September, 2022

As a Graphic Designer within a collaborative team, I played a pivotal role in the development of single-page websites, specifically landing pages. My responsibilities encompassed designing and crafting page layouts and visual elements in alignment with the specific requirements and preferences of our clients. Key aspects of my role included:

- **Design Creation:** Utilized design software such as Adobe Photoshop and Figma to conceive and develop visually compelling landing page designs.
- **Client Collaboration:** Worked closely with clients to gain a thorough understanding of their objectives and project specifications, ensuring that the designs met their unique needs.
- **Visual Assets:** Produced custom graphics, icons, and other visual assets to enhance the aesthetics and user experience of the landing pages.
- **Detail-Oriented Approach:** Maintained meticulous attention to detail to guarantee design consistency and quality across various devices and web browsers.
- **Iterative Design Process:** Engaged in an iterative design process, actively incorporating feedback from both the team and clients to refine and optimize the designs.
- **Staying Current:** Kept abreast of the latest design trends and best practices to ensure that the landing pages remained modern and effective.

My role as a Graphic Designer demanded a harmonious blend of creativity, technical proficiency, and effective communication to deliver captivating and functional landing pages that precisely met the requirements of clients.
